

OUR COMPREHENSIVE CARGO SECUREMENT LINE KEEPS SHIPPERS, THEIR CUSTOMERS, AND THEIR CARGO SAFE DURING LOADING AND UNLOADING.

Ty-Gard 2000®

A patented, flexible restraint system which absorbs energy to stabilize loads in transit. It is the only product approved for hazardous shipments via all modes of transportation.

TY-GARD
PATENTED
2000

TY-GARD
DOUBLE-STRENGTH

Ty2® Strap

Our AAR-approved, woven-cord strapping delivers up to 11,000 lbs. of steel-band replacement strength for unitizing, cargo securement and open-top railcars.

Ty-Cord® Strapping

Our shock-absorbing, non-woven strapping is the ideal solution for securing container loads of pallets, drums, machinery, crates or boxes. This strapping conforms to any size or shape and is applicable in all climate conditions, while maintaining 100% performance and integrity.
