

# TY-CORD®

## High Performance Non-Woven Polyester Strapping

- Maximum Strength, Minimum Elongation, Cross Directional Strength
- Abrasion, Weather and Heat Resistant
- Prevents Damage to Cargo
- Cost Effective / Easy to Recycle

TY-CORD® in combination with superior buckles and hardware are unbeatable. Specifically designed to work with TY-CORD®, this system is one of the safest alternatives to steel banding and offers an ideal solution for packaging and transportation.

Environmentally safe shipping and packing products like dividers, air-bulkheads, wood stabilizers are all available and customized to specific cargo.

Impervious to weather, heat, or extreme cold conditions.
